

Improve accuracy and efficiency with digital wireless price tags

Electronic shelf labels (ESLs) are digital displays that can be placed on your shelves or counters. They can be used to display prices, best before dates, and other information. ESLs are easy to use and can be updated remotely. This means that you can change your prices and best before dates without having to go into your store.

Auto-Update Feature for Information Like Best Before

Wireless Connectivity

Minimum 3 Years Battery Life

No External Power Required, Internal Battery

Display Colors: Red, Black, White

Applications

ELECTRONIC SHELF LABELS

DIGITAL PRICE TAGS

CONFERENCE DIGITAL NAME PLATES

MEETING ROOM CALENDER DISPLAY

ESL DISPLAYS

STE213R (2.13" B/W/R)

Size: 70*34.5*12.1 mm
Connectivity: BLE 5.0
Screen: 48.55*23.7 mm
Display Type: ePaper
Color: Black/ White/ Red
Operating Temperature: 0~40 deg C
Coin Cell Battery: 1200 mAh (2xCR2450)

Size: 90*41*12.1 mm

Connectivity: BLE 5.0

Screen: 66.9*29.1 mm

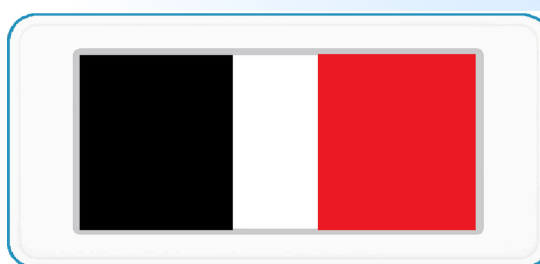

Display Type: ePaper

Color: Black/ White/ Red

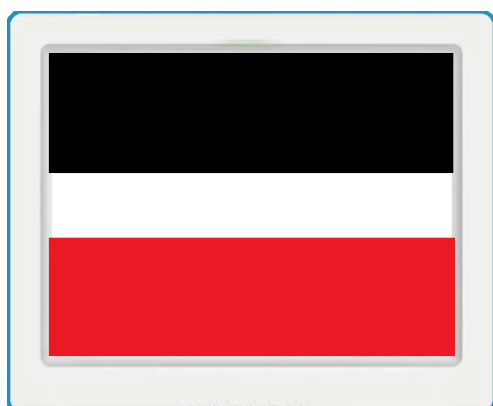

Operating Temperature: 0~40 deg C

Coin Cell Battery: 1200 mAh (2xCR2450)

STE29R (2.9" B/W/R)

STE42R (4.2" B/W/R)

Size: 104.8*87*12.8 mm

Connectivity: BLE 5.0

Screen: 84.8*63.6 mm

Display Type: ePaper

Color: Black/ White/ Red

Operating Temperature: 0~40 deg C

Coin Cell Battery: 1200 mAh (2xCR2450)

AP GATEWAY

ESL Transmission Equipment

Connectivity: BLE, Ethernet, Wifi

Coverage: Indoor 30m radius

Operating Temperature: 0~50 deg C

Weight: 500g

Power: 48V POE

ESL Management Software

Software to manage and automate the Electronic Shelf Label. Available in both :

★ **On-Cloud Software (Yearly License)**

★ **On-Premise Server (Perpetual License)**
